STEVE IVY RARE COIN COMPANY

MAY, 1975

Dear Customer:

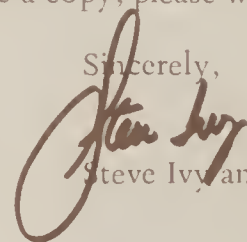

It is probably only a matter of months before the ANA will begin the operations of an independent grading board to examine and grade coins sent to them for inspection. We vigorously applaud the efforts of the many people who have helped bring this about. We feel this will greatly aid both the collector and the honest coin dealers.

As most collectors know, the foremost problem of the coin buyer today is that of overgrading. It is now virtually impossible for the novice, or even the advanced collector, to know whether he is, in fact, going to receive what he has paid for. All coin dealers claim to grade fairly. The fact remains that few do. The truth is that competition in the industry structure itself has more or less led most coin dealers into various degrees of overgrading.

We here at Steve Ivy Rare Coin Co., while not oblivious to industry pressures, have always tried to be fair and forthright in our business practices. We do, however, feel that we have room for improvement. We are considered leaders in the industry and would like to take this opportunity to take another step forward, by offering you our guarantee.

Our prices will seem quite high to those who will not take the time to learn why. Our marketing is aimed at the knowledgeable collector and at the investor who is looking for the assurance that he will receive exactly what he is paying for. A booklet explaining our quantitative grading scale in greater depth is being prepared. If you desire a copy, please write.

Sincerely,

Steve Ivy and Staff

STEVE IVY RARE COIN CO.

JUNE-JULY, 1975

Dear Customer,

This is our first price list since our introduction of the Guaranteed Grading Policy. The response has been overwhelmingly good, with the exception of a few "worried" dealers. We have enclosed with this listing a separate booklet explaining our grading and the Sheldon Quantitative Number System. We suggest you keep this for future reference. If any of you have any questions that are not answered in this booklet, we would appreciate hearing from you.

In this list, we are pleased to present the R. L. Anthony Collection, along with selected pieces of our regular inventory. We were, indeed, fortunate in acquiring this collection, in that almost all of the coins were of the highest quality we take pride in handling. All of the coins have been attractively priced and, for the true grade delivered, you can be sure our prices are the best in the industry. There are well over 500 new coins listed and well over \$1,000,000 in value. We strongly suggest you look it over completely and call on anything of interest.

Remember that many of our customers rank among the elite in the hobby, but we also have time for even the smallest collector.

Sincerely,

Steve

How Rare Is It?

by: Walter Breen

In the nickel 3¢ series, only one item qualifies as rare, and it is not the 1887/6 proof, nor the 1878, nor even the 1877. The real rarity is the 1865 proof, mintage now estimated at 400. There are two pairs of dies muled to make three varieties; the first of these (less than a dozen known) has normal date without recutting, and very heavy ribbon ends below the wreath, running into the border. The second variety, still rarer, has the same obverse and a normal reverse with narrower ribbon ends. The third variety, accounting for 90% of the known 1865 proofs, has the date showing extra parts of the digits above and to the left of each numeral, and the same narrow ribbon reverse.

Five-cent nickels are 'something else'. The 1866 proof (mintage estimated at 125) has for some years now been a four figure coin; all the authentic proofs I've seen of this date show plain center dots on both sides. The 1867 with rays in proof is very rare, but probably more than half survive of the original mintage of 25. Enough early strikes are known to require authentication of any alleged proof offered.

Next in line chronologically is the 1869/8, which must not be confused with recut dates sometimes offered. About one out of every 20 to 25 1869's comes with narrow numerals similar to 1870. About one out of every 20 narrow numeral coins show 9 over 8; use a 10-power glass. For a quick check, remember that the usual wide numeral coins show very great differences between thick and thin parts of the figures—which is not true of the narrow.

After this next rarity, properly so called, is 1873/72. This, under a 4- or 6-power glass shows plain evidence of the middle part of 2 within 3, and the 1873 logotype is heavily double-punched in such a way as to make it impossible to determine if it was originally an open or closed 3. I have seen two and heard of a third, but probably a few others are around awaiting the attention of sharp-eyed cherrypickers.

Next to the above four items, the 1877 is fairly common; the 1871, '75 and '78 are very common. The 1883/2 used to be a rarity, but of the five die varieties only two can still qualify as rare (the best being the one with most of the 2 visible to the left of 3, making "18823") because the die was promptly lapped to remove the traces of 2. The other rarity is one with the traces of 2 to the right of 3, the 1882 date having been punched in too far to the right. The overdate pictured in the red book is fairly rare showing that much of the 2; usually, only part of the midcurve of the 2 between knobs of the 3 remains.

Among the Liberty Head Nickels, aside from the pattern dated 1882 which has long been a four figure coin and which mostly survives in VF or EF condition (used for barroom betting?), the only real rarities are the 1899/8 and 1913. I have seen three Uncirculated, one AU and about twenty Good to VG specimens of the 1899/8. Worn ones are readily identified as the last 9 is solid and much wider than the first 9. Choice examples show plain parts of an 8 within the loop and open space of the 9. As for the 1913, either 5 or 6 of this concoction are known, and its high five figure price is obviously due to nationwide publicity.

Among the Buffalo Nickels, the first one to look for is the 1913 first type, but *without* the designer's initial 'F'. Two or three of these are still unaccounted for; they will either be Choice Unc. or possibly Matte Proofs. The 1916 Matte Proof is rare and usually found spotty or badly cleaned. Unfortunately, hundreds of uncirculateds have been offered misdescribed as proofs.

Next is the 1916 (usually D Mint) with plainly doubled date. I have seen four and heard of three others. This is at least as spectacular as the 1955 Shift Cent. Only two of the survivors are better than VF. Next to this, the 1918/7 is common, though admittedly prohibitively rare in or near Mint State. Beware of forgeries made either by carving outline within 8 or adding part of date elements from 1917 or 1918; we are still awaiting photographic enlargements of one of the three Mint State examples, which will serve thereafter as permanent references.

There are no later rarities as dates go, but the 1937-D three-legged Buffalo is almost unobtainable in frosty Brilliant Uncirculated condition. I have seen only two that really qualify as full Mint State, one of these selling in the 1950's to Louis Wolf before he went to Denmark as an exchange student. However, hundreds survive in VF or EF. There is one other similar goof deserving mention; this is the 1936 two-legged coin, both the foreleg (as in the 3-legged) and the hindmost leg being obliterated from the die, doubtless from the same cause. All four of these I have seen are in VG to Fine condition, and said to have been discovered by the late Michael Kolman.

So far, none of the over-mintmarks (1938D/S, 1954S/D, 1955D/S) have qualified as rare, though the middle one is very scarce. But the 1971 without mintmark, said to have been included in 1655 proof sets before the error was discovered and the die condemned, comes close to qualifying as a rarity. I do not think we have seen the last of this kind of error either. Until recently, almost nobody looked really closely at modern proof sets.

HALF-DIMES

1794 EF/AU (45+) First year of issue. Rarer than the 1795, especially in high grades. This coin has claims to AU, so it is priced very fairly at	2,150.00
1795 Ch BU (60+) Beautifully toned, and worthy of the finest collections. Recently, a piece no better than this brought \$6,500 in auction. This normally would sell at a much higher price, but we purchased it at a very reasonable price from an old time collector.	3,650.00
1797 EF/AU (45+) Actually a very underrated type coin	875.00

HALF-DIMES (Cont'd)

1803 Ch BU (60+) Out of all the Draped Bust Series, Cents through Dollars, this type is far and away the most elusive in Mint State. EARLY DOLLARS

1795 EF/AU (45+) Flowing hair. Quite a bit of original luster still adhering. Nice, clean planchet. Completely void of any of the usual defects associated with the early silver coinage.....	2,450.00
1797 Ch BU (60+) Small eagle. Ten stars by six stars. A few very light adjustment marks on obverse. Fully brilliant and fully struck. Very scarce in this grade. An outstanding type coin. Superior to many that have sold at much higher prices. Actually, the 1797 Small Eagle is probably 5 times rarer than the 1795.	22,500.00
1799 Ch AU (55+) We have two pieces of this date available. Both coins are free of adjustment marks and are well centered with no bagmarks. One is toned with greens and blues; the other a light gold. Each coin is the type which is commonly offered as "BU". Priced realistically at.....	2,250.00
1838 Ch Proof (60+) Gobrecht Dollar. Reverse features Eagle in plain field. Both the Red Book and Judd list this coin as R-8 (three known), but we suspect probably 6 or 7 examples exist. A very rare coin, and immensely desirable.....	11,500.00
1841 BU (60) Fully brilliant with proof-like surfaces.....	745.00
1842 EF (40).....	145.00
1842 Proof (60) A few minor hairlines and rim imperfections, but truly a scarce coin. Proof coins of the 1840's were struck only for serious collectors and are all rare. We note a choice proof on the market at \$7,500. Ours is not of that quality, but neither is the price.	2,250.00
1846 Ch BU (60+) Deeply toned in blues and greens.....	675.00
1852 VG (8) This coin is seldom offered in any grade. This specimen has apparently been repaired, but should sell quickly to the date collector of Seated Dollars who can't afford the mid four figure coin.....	1,950.00
1852 EF (40) A nice, clean specimen with no problems at all and toning about the periphery. As mentioned above, an extremely hard coin to locate in any grade. We feel this coin should sell quickly at.....	3,200.00
1856 Ch AU (55) It is hard to keep from grading this coin uncirculated, but it does show only the faintest trace of rub. A true Mint State specimen would bring several thousand dollars. This lustrous coin is well worth our price of.....	675.00

1860-O BU (60).....	435.00

1868 Gem Proof (65) Superb toning.....	1,200.00
1870 Ch Proof (60+) Frosted devices. A few minor hairlines.....	1,000.00

1873 Ch Proof (60+) Superbly toned. Some light hairlines.....	1,000.00

1854-S VF (20)	495.00
1854-S Ch AU (55+) The first San Francisco Double-Eagle. Most specimens seen are low grade, with nicks and other impairments. We would pay \$7,500 for an MS-60 of this date and feel this lustrous example is well worth	3,500.00
1856-S Ch BU (60+) Normal bagmarks. Full blazing Mint Frost. A very scarce coin in this state of preservation	1,950.00
1857-O EF (45) Very scarce date in all grades, extremely difficult to locate much nicer than this. Based on our auction records, the coin is a steal at	895.00

1861-S EF (40) Double-Eagles from this era just don't get much cheaper than this	395.00

1861-S Paquet EF/AU (45+) The reverse designed by Anthony Paquet. These new reverse dies, featuring tall, narrow letters, were sent to the branch mints. A trial striking at Philadelphia on January 5, 1861, showed the new die to be unsuitable for regular issue coinage. James Pollock, Director of the Mint, sent messages to New Orleans and San Francisco, suspending further use of the die. The message arrived at New Orleans but, due to primitive communications, failed to reach San Francisco in time. An unknown quantity, using the Paquet reverse, had already been struck and most of these were melted and recoinied using the regular die. An immensely desirable and historical issue. This piece is one of the finest known examples of this rare coin	8,500.00
1866-S VG (10) NO MOTTO. A limited number were struck in the early part of 1866, before the dies with "In God We Trust" arrived from Philadelphia	450.00

1885 Ch AU (55) One of the premier dates of the entire Double-Eagle series. Only 828 business strikes and 77 proofs were minted. This date is seldom offered for public sale and represents an opportunity for the astute buyer at	14,500.00

1905 Ch BU (60+) Frosty	650.00

- J-1554 Ch Proof (60+) 1878 Dollar, Silver, R-5. Designed by William Barber. "E Pluribus Unum" in small Gothic letters on reverse.1,750.00
- J-1648 Proof (60) 1880 Dollar, Metric Alloy, R-7. Morgan's design with Liberty's hair hastened in a bun. Reverse is the Metric design, as conceived by Dr. Hubbel, who pursued adoption of this design, despite decisive rejection two years earlier. One of the very few patterns issued in 18802,250.00
- J-1747 Ch Proof (60+) 1885 Dollar, Silver, R-5. Snowden's experimental piece. Regular dies, with the motto "E Pluribus Unum" lettered on the edge2,950.00

Gold Patterns

- J-67 Gem Proof (65) 1836 Gold Dollar, R-6. Dies aligned normally and not upright, which differentiates this coin from the less valuable J-68, a gold and silver alloy coin. ONE OF THE VERY FEW COLLECTIBLE PATTERNS IN GOLD. Most specimens known are impaired or lightly circulated. Obverse design has a radiated Phrygian cap with liberty on the band. Reverse has "1-D" encircled in a palm branch. It was not until 13 years later that the United States adopted the gold dollar. An important coin, numismatically and historically5,800.00
- J-147 Ch Unc. (60+) 1852 Gold Dollar, Copper, R-7. One of the most ornate and beautiful of the Ring Dollar designs. The coin was proposed as an alternative to the small regular issue Gold Dollars. CONFEDERATE CURRENCY

We have recently purchased a large collection of Confederate Currency. This accumulation contained sixty of the seventy-two possible type notes and many of the scarce and rare sub-types and varieties. Many of the sub-types and varieties are seldom offered, and collectors specializing in Confederate Currency can surely find notes they need from this old time hoard. It's much too large to list the individual notes, so send us your want list or call us. We will be pleased to assist you.

Steve Ivy Rare Coin Company would like to tell you about a blue chip investment program that's gold, silver, and copper.

Rare Coins.

Announcing an uncomplicated plan for rare coin investors.

HERE'S WHAT STEVE IVY RARE COIN CO. HAS TO OFFER

Our investment program is very simple. You may invest as little as \$50 a month to as much as \$20,000 a month. You tell us how much you wish to invest monthly and we'll go into the market and purchase for you those items which our research indicates have top investment potential.

The coins are then shipped to you on approval for your inspection. You pay absolutely nothing until you have the coins in hand. If you agree that the package contains choice coins reasonably priced, send us your check. Should you be unhappy for any reason, you have seven days to return the coins.

When you decide it is time to sell, we will offer you our top buy price to obtain them. To assure you that our price is the top price, you are under no obligation to sell back to us. You can sell to any of the 10,000 plus coin dealers in this country who will compete to obtain the choice and rare coins which we place in your portfolio.

WHY RARE COINS?

"Why rare coins?" you ask. Because of one simple economic fact. A decreasing coin supply and a rising demand. The supply of rare coins is fixed and in some instances it's decreasing due to certain issues being purchased by private collectors. Congruently, the demand for rare coins has been rising because of an increase of serious rare coin collectors. These two elements lead to an unprecedented opportunity for you to make money with our rare coin investment program.

When you do business with Steve Ivy Rare Coin Company you're doing business with the best.

STEVE IVY RARE COIN CO., a division of IVY FINANCIAL CORPORATION, is the Southwest's largest dealer in rare coins. The sales volume of IVY FINANCIAL CORPORATION should exceed \$25,000,000 this year. We have a strong financial structure built on solid business dealings. In fact, we welcome you to call our bank reference, Mr. Bill Whitsitt, Citizens National Bank of Dallas. Our size enables us to stay on top of the market. In addition to our intra-dealer teletype system connecting us with over 250 of the country's largest dealers, our incoming and outgoing WATS lines and our telex system keep us in touch with the national and international markets. More important, we are a major retailer of rare coins. The advantage is that we can see the real collector and investor trends. We then pass all this information to you to help you make wiser, more profitable investments.

We're sure there are more questions you want answered like: What are the tax advantages? Can you participate in the coin selection of your portfolio? Is there a time obligation? Can you use your coins as collateral? And many more. We welcome your inquiries and hope you feel free to call toll free at any time.

Catalog Supplement

STEVE IVY RARE COIN CO.

AUGUST, 1975

Dear Customer:

July was our best month of this year, and was equal to the hectic pace of this time last year. With the ANA Convention fast approaching, a fever pitch has set in at most of the major coin shows. It seems that most of the collectors and investors are regaining their confidence in the coin market. It is ironic to note that with most forms of investment people lose their confidence when the market goes down. Rare coins, however, have had such a long track record of going up every year that people began to worry when coin prices stayed the same for a period of months. Well, it seems now that this situation has changed and the buying public is coming to the realization that coins aren't going down and are still the tremendous investment they have always been. As a result, much of the money that was held in cash during the last six months is now coming into the market, causing disproportionate sales and a quick disposition

of most available supplies. Consequently, rare coins are experiencing the first real price advances of this year.

There are still quite a few nice coins available on the market, but under present conditions, we doubt that these available supplies will remain long at current price levels.

Want List. As a final note, during the next month members of our staff will attend seven major shows, including the ANA in Los Angeles. During this time, we will view well over 500

dealers' inventories and probably over \$50,000,000.00 in value of rare coins. If there is something you are looking for, chances are we will run across it at favorable prices. Don't delay, and send us your Want List today by using the form on the back of this price list.

Sincerely,

Steve Ivy

1795 Ch BU (60+) Beautifully toned, and worthy of the finest collections. Recently, a piece no better than this brought \$6,500 in auction. This normally would sell at a much higher price, but we purchased it at a very reasonable price from an old time collector.	3,650.00
1803 Ch BU (60+) Out of all the Draped Bust Series, Cents through Dollars, this type is far and away the most elusive in Mint State. Bust Dollars have brought over \$12,000 and the Draped Bust Half-Dollar recently brought over \$10,000. As a date, the 1803 is in the same rarity class as the heralded 1802. FRANKLIN HALVES

1947-S Ch BU (60+)	40.00
--------------------	-------

EARLY DOLLARS

1795-EF/AU (45+) Flowing hair. Quite a bit of original luster still adhering. Nice, clean planchet. Completely void of any of the usual defects associated with the early silver coinage	2,450.00
1797-Ch BU (60+) Small eagle. Ten stars by six stars. A few very light adjustment marks on obverse. Fully brilliant and fully struck. Very scarce in this grade. An outstanding type coin. Superior to many that have sold at much higher prices. Actually, the 1797 Small Eagle is probably 5 times rarer than the 1795.	22,500.00
1798-EF/AU (45+) Nice, pleasing coin. Free of usual problems that are generally accompanying Early Dollars	950.00
1799-Ch AU (55+) We have two pieces of this date available. Both coins are free of adjustment marks and are well centered with no bagmarks. One is toned with greens and blues; the other a light gold. Each coin is the type which is commonly offered as "BU". Priced realistically at	2,250.00
1841-BU (60) Fully brilliant with proof-like surfaces	745.00
1842-EF (40)	145.00
1846-Ch AU (55)	275.00
1846-Ch BU (60+) Deeply toned in blues and greens	675.00
1852-VC (8) This coin is seldom offered in any grade. This specimen has apparently been repaired, but should sell quickly to the date collector of Seated Dollars who can't afford the mid four figure coin	1,950.00
1852-EF (40) A nice, clean specimen with no problems at all and toning about the periphery. As mentioned above, an extremely hard coin to locate in any grade. We feel this coin should sell quickly at	3,200.00
1856-Ch AU (55) It is hard to keep from grading this coin uncirculated, but it does show only the faintest trace of rub. A true Mint State specimen would bring several thousand dollars. This lustrous coin is well worth our price of	675.00

1932 BU (60)	245.00

DOUBLE-EAGLES

1850 EF/AU (45+) Proof-like. Some bagmarks. First year of issue	725.00
1850-O VF (35+) The first "O" Mint Double-Eagle.	550.00
1850-O EF (40)	650.00
1851-O VF/EF (35+)	450.00

1861-S EF (40) Double-Eagles from this era just don't get much cheaper than this	395.00
1861-S Paquet EF/AU (45+) The reverse designed by Anthony Paquet. These new reverse dies, featuring tall, narrow letters, were sent to the branch mints. A trail striking at Philadelphia on January 5, 1861, showed the new die to be unsuitable for regular issue coinage. James Pollock, Director of the Mint, sent messages to New Orleans and San Francisco, suspending further use of the die. The message arrived at New Orleans but, due to primitive communications, failed to reach San Francisco in time. An unknown quantity, using the Paquet reverse, had already been struck and most of these were melted and recoinced using the regular die. An immensely desirable and historical issue. This piece is one of the finest known examples of this rare coin.	8,500.00
1866-S VG (10) NO MOTTO. A limited number were struck in the early part of 1866, before the dies with "In God We Trust" arrived from Philadelphia	450.00

1872-S Ch BU (60+) Fully brilliant. Another rare issue in Mint State	795.00
1875-S Gem BU (65) A frosty devil, priced at what will prove to be more than fair	595.00
1878-CC VF (30) The quality normally offered as "EF"	595.00
1884-CC BU (60) Cheap	625.00
1885 Ch AU (55) One of the premier dates of the entire Double-Eagle series. Only 828 business strikes and 77 proofs were minted. This date is seldom offered for public sale and represents an opportunity for the astute buyer at	14,500.00
1889-CC EF/AU (45+)	425.00
1890-CC EF (45)	395.00
1890-CC Ch AU (55)	495.00
1905 BU (60) 59,011 minted	545.00
1909-D Ch AU (55+) We would pay \$2,000 for an MS-60. This coin is just a hair away.	1,250.00
1913-S Ch BU (60+)	850.00

PATTERNS

Pattern Cents

J-160 Proof (60) 1854 One-Cent, Copper, R-4. Smaller in diameter than the regular issue. The obverse field is plain and the reverse has a smaller wreath. A regular issue Proof is currently on the market at \$5,000. This coin is certainly underpriced at	295.00

- J-495 Proof (60) 1866 Shield Nickel, Copper, R-8. The shield type obverse, with the motto "In God We Trust" in small letters and the divided date. The reverse features the so-called "Short 5" in wreath. The only sale we note on this particular coin was by Empire Coin Co. in 1961 at \$150. A very scarce and desirable issue, priced fairly on today's market at.....695.00

- J-1315 VF (20) Trade Dollar, Silver, R-5. The popular Bailly design.....595.00

Gold Patterns

- J-67 Gem Proof (65) 1836 Gold Dollar, R-6. Dies aligned normally and not upright, which differentiates this coin from the less valuable J-68, a gold and silver alloy coin. ONE OF THE VERY FEW COLLECTIBLE PATTERNS IN GOLD. Most specimens known are impaired or lightly circulated. Obverse design has a radiated Phrygian cap with liberty on the band. Reverse has "1-D" encircled in a palm branch. It was not until 13 years later that the United States adopted the gold dollar. An important coin, numismatically and historically5,800.00
- J-147 Ch Unc. (60+) 1852 Gold Dollar, Copper, R-7. One of the most ornate and beautiful of the Ring Dollar designs. The coin was proposed as an alternative to the small regular issue Gold Dollars. Utilizing a perforation in the center, an idea adopted from the coinage of the Chinese, the coins could be produced larger in diameter. An interesting example.895.00
- J-148 Gem BU (65) 1852 Gold Dollar, Copper-Nickel, R-7. As above, but struck in copper-nickel instead of copper. Mellowed toning to a gorgeous red-brown995.00
- J-272 Ch Proof (60+) 1860 Half-Eagle, Copper, R-6. A beautiful pattern with Liberty wearing a cap with three stars; reverse features a small eagle with raised wings. This design is non-collectible in Gold. Nice surfaces with deep toning. Priced reasonably at.....1,450.00

- J-1478 Ch Proof (60+) 1876 Gold Dollar, Copper, R-7. Regular dies trail piece in Copper. A centennial issue, and an interesting addition to any collection. Ex-Farouk950.00

CONFEDERATE CURRENCY

We have recently purchased a large collection of Confederate Currency. This accumulation contained sixty of the seventy-two possible type notes and many of the scarce and rare sub-types and varieties. Many of the sub-types and varieties are seldom offered, and collectors specializing in Confederate Currency can surely find notes they need from this old time hoard. It's much too large to list the individual notes, so send us your want list or call us. We will be pleased to assist you.

We often buy coins we never advertise for re-sale. The reason? One of our customers had a "want list" on file with us which requested these coins and they went directly to that customer.

Often we can sell “want list” coins at a lower price since we do not have to include the cost of advertising them.

Several of our staff are "want list" specialists. Please give us the opportunity of showing what we can locate for you . . . at a reasonable price.

Catalog Supplement

STEVE IVY RARE COIN CO.

NOVEMBER, 1975

Dear Customer:

The response to our last supplement was most gratifying. In fact, we sold over 50% of the coins listed. This is indeed a very large percentage. The reason for this could be summed up in one word—value. You may ask why or how one firm can offer better value than another. The answer is two-fold. First, our firm travels to more coin shows than any firm in the country in search of high quality coins. It only stands to reason that while attending 50 shows a year, we will have more opportunities to buy more quality coins than a firm that travels to 15 or 20 conventions. These firms are forced to buy some of the more marginal coins available.

The second reason is one of pricing. Most of our competition comes from several very large companies. Some of these companies have 5 to 10 times the inventory we maintain. In order to achieve a certain sales turnover rate, we must price our coins very competitively. If these other firms were to price their coins as competitively as we do, they would sell the same percentage of their inventory as we do. We maintain an inventory of approximately one million dollars and average selling about 40% per month. That means we have to spend about \$400,000 per month on rare coins to hold our inventory at a constant level. Considering how aggressive our buyers are, we have little difficulty spending this amount of money on quality coins. Now if a firm with 5 million dollars inventory were to sell 40% of their inventory per month, they would have to spend \$2 million per month on rare coins, or approximately \$100,000 per business day. There simply are not that many high quality coins available. This firm then, in order to meet demand, would be forced to buy marginal coins. In order to prevent such an event occurring, these firms are in the enviable position of being able to raise their prices, which reduces demand, and increases their profit margin at the same time!

Thank you,

Steve Ivy

United States Coins For Sale

COLONIALS

Many of these issues have been favorably priced for this catalog. There are many coins which we will not be able to replace at these low prices once they are sold.

- 1616 EF (40) Sommer Islands Sixpence. Large portholes. When these circulated, they were known as "Hogge Money" because a hog serves as the prominent obverse device. This coin, we feel, is far and away. **FINEST KNOWN** example of this issue ever offered for public sale. This in itself is quite noteworthy considering that Stack's, in describing a Sommer Islands Sixpence for the Massachusetts Historical Society Sale in 1973, felt that piece was probably the finest known and it brought \$28,000. The presently offered coin has a planchet and detail that can only be called "incredible" because this issue normally comes with severe corrosion. Considering the exceptional quality, with virtually no corrosion, this example will prove to be the highlight of any collection. (p. 13) 29,500.00
- 1662 Ch AU (55+) Oak Tree Two Pence. The only early Massachusetts silver issue dated other than 1652, due to a director's error. Struck slightly off-center. An exceptional coin from a condition standpoint and probably the **FINEST KNOWN**. Most dealers would offer this coin as fully "Uncirculated". We have tried to be conservative in both our grade and asking price. (p. 15) Only 4,250.00
- 1652 AG/G (4+) Oak Tree Shilling. Really not as bad as it sounds. Priced to sell. (p. 16) 295.00
- 1652 AG (3) Pine Tree Sixpence. (p. 16) 225.00
- 1652 EF (40) Pine Tree Shilling. Wide, thin planchet. This is the Waldo Newcomer specimen, Lot 3065, later resold by New Netherlands Coin Co. in 1968. An excellent coin with an impressive pedigree. (p. 16) 1,250.00
- 1652 EF/AU (45+) Pine Tree Shilling. Small planchet, in imitation of English coins. (p. 16) 1,575.00

- 1722 AU (50) Hibernia/Woods Half-Penny. First type, harp at left. Some proof-like surfaces with minor areas of discoloration. (p. 21) 195.00
- 1723/2 Ch AU (55) Hibernia/Woods Half-Penny. Large 3, 11 harpstrings. These coins were unpopular in Ireland, and most were sent to the American colonies. High grade specimens are seldom encountered. (p. 21) Worth 495.00
- 1723 VF (25) Hibernia/Woods Half-Penny. (p. 21) 75.00
- 1723 AU (50) Hibernia/Woods Half-Penny. (p. 21) Cheap 150.00

- 1723 AU (50) Hibernia/Woods Farthing. These high grade colonial issues still have tremendous potential for future price appreciation. These historical pieces would make a fine addition to any collection or investment portfolio. (p. 21) Reasonable 175.00
- 1723 Ch AU (55) Hibernia/Woods Farthing. 11 harpstrings. (p. 21) 250.00
- 1724 EF (40) Hibernia/Woods Farthing. 10 harpstrings. Period after date. (p. 21) 195.00
- 1724 Ch AU (55) Hibernia/Woods Half-Penny. Period after date (p. 21) 450.00
- 1766 VF (20) Pitt Half-Penny. Struck as a commemorative medalet to William Pitt, with regard to his efforts to remand the Stamp Act. (p. 21) An EF is worth \$1,000. This slightly lower grade piece is only 425.00
- 1787 VF (25) Connecticut Cent. Horned bust variety. (p. 29) 140.00
- 1788 VF (20) Connecticut Cent. Mailed bust left. (p. 30) 95.00
- 1787 VF (30+) Massachusetts Half-Cent. Some minor planchet roughness. (p. 31) 195.00
- 1786 G (6) New Jersey Cent. Narrow Shield. (p. 33) 26.00
- 1776 EF/AU (45+) Continental Dollar. "Currency". No "E. G. Fecit". The scarcest collectible variety in pewter. From an early B. Max Mehl auction sale. The Guidebook lists an evaluation of \$12,000 in EF. We have priced our attractive example to sell quickly. (p. 34) 5,950.00
- 1783 VF (35) Nova Constellatio Copper. Pointed rays, large U. S. Scarce variety. (p. 36) 175.00
- 1783 EF (40) Nova Constellatio Copper. Blunt rays. "Constelatio" variety. (p. 36) 165.00

- 1767 AU (50) French Colonies Sovereign. No counterstamp. Really an outstanding example with traces of faded mint red. (p. 40). Expensive, but well worth 795.00
- 1767 VF (20) French Colonies Sovereign. Counterstamped "RF" for "Republique Francaise". (p. 40) 90.00
- 1767 VF (25) French Colonies Sovereign. Counterstamped "RF" for "Republique Francaise". (p. 40) Only 125.00
- 1781 VG (8) North American Token. (p. 40) 35.00
- 1781 VF (20) North American Token. One of the colonial issues which is seen less than its price would indicate. (p. 40). 65.00

- 1783 AG/G (4+) Chalmers Shilling. Struck by J. Chalmers, a goldsmith, in Annapolis, Maryland. (p. 43) 395.00
- 1783 EF (40) Chalmers Shilling. Short worm variety. The detail and surfaces must be seen to be appreciated. Better than the Gibson example (Stacks, November, 1974) which brought \$2,600, but not quite of the quality of one recently advertised as Borderline Unc. for \$17,500. Only recently has the desirability of the Chalmer coinage been recognized, as they were the **FIRST CIRCULATING SILVER COINS ISSUED IN THE AMERICAN COLONIES SINCE THE PINE TREE COINAGE**. An important rarity, numismatically and historically. 2,750.00

1849 Ch BU (60+) The value of the No Motto \$10 in Mint State has been adversely affected by the amount of sliders offered as Mint State. This coin, in this grade, is nothing short of RARE, as any specialist in rare gold will heartily attest to. DECEMBER, 1975

Offerings from an old-time collection.

Recently we were fortunate enough to acquire an old-time Eastern collection which was assembled immediately after the First World War. In fact, the latest additions to the entire collection are dated 1921. The overall quality of the collection can only be considered remarkable. Almost without exception, every coin is beautifully toned. These types of coins become available only when collections such as this are sold. Also included here are many of the more desirable coins from our inventory.

So please don't miss this opportunity to add some extremely nice pieces to your collection.

COLONIALS

1616 EF (40) Sommer Islands Sixpence. Large portholes variety. The first coinage struck for the English Colonies in the New World in about 1616. Four denominations were issued; the Shilling, Sixpence, Threepence, and Twopence, all denoted by Roman numerals. When these circulated, they were known as "Hogge Money" because a hog serves as the prominent obverse device. A Galleon with the flags of St. George flying from the masts is featured on the reverse. The islands were originally named for Sir George Sommers who was shipwrecked there in 1609 while enroute to the Virginia Plantation. Earlier, one Juan Bermudez (the islands were later renamed Bermuda in honor of this explorer) stopped there leaving a few hogs, whose population multiplied rapidly. When the Sommer Party ended up there, the hogs on the island served as an abundant food supply for them. This coin, we feel, is far and away the FINEST example ever offered for public sale. This in itself is quite noteworthy considering that Stacks, in describing a Sommer Islands Sixpence for the Massachusetts Historical Society Sale in 1973, felt that piece was probably the finest extant example and it brought \$28,000. The presently offered coin has a planchet and detail that can only be called "incredible" because this issue normally comes with severe corrosion due to the atmospheric conditions on the islands. The exceptional quality, with VIRTUALLY NO CORROSION, must be seen to be fully appreciated. This example will never be equalled and will prove to be the highlight of any collection. (p. 13) P.O.R.

1662 Ch AU (55+) Oak Tree Twopence. The only early Massachusetts silver issue dated other than 1652, due to a Diecutter's error. Struck slightly off-center. A truly amazing coin from a condition standpoint and the finest we have seen or handled. Most dealers would offer this coin as fully "Uncirculated". We have tried to be conservative in both our grade and asking price. (p. 15). 4,250.00

1652 EF (40) Pine Tree Shilling. Wide, thin planchet. This is the Waldo Newcomer specimen, Lot 3065, later resold by New Netherlands Coin Co. in 1968. An excellent coin with an impressive pedigree. (p. 16) 1,250.00

1652 EF/AU (45+) Pine Tree Shilling. Small planchet, in imitation of English coins. Identifiable as a later issue. (p. 16) 1,575.00

Complete Set of U. S. Silver Dollars of 1878

In the first year of minting the Morgan designed silver dollars at the Philadelphia Mint, the dies used depicted the eagle on the reverse to have eight tail feathers. To the dismay of the engravers, only seven tail feathers were to appear on the coin, as on all other U. S. coins having eagles in their design. After only a few weeks of production, mintage of the dollars was stopped so that the eighth feather could be removed from the dies. Many of the eight feather dies were re-cut to show only seven feathers, but when the coins were again struck, tiny feather tips protruded from under the seven feather design. Late in 1878, the seven feather dies were perfected and were sent on to San Francisco and Carson City. Thus we find five example of Morgan Dollars bearing the date of 1878. They are the 1878-8 Feather, 1878-7 over 8 Feather, 1878-7 Feather, 1878-S, and the 1878-CC.

We offer this set in Gem Brilliant Uncirculated, housed in a custom plastic holder with the five Morgan Dollars of 1878 for only . . . 159.00

We often buy coins we never advertise for re-sale. The reason? One of our customers had a "want list" on file with us which requested these coins and they went directly to that customer.

Often we can sell "want list" coins at a lower price since we do not have to include the cost of advertising them.

Several of our staff are "want list" specialists. Please give us the opportunity of showing what we can locate for you . . . at a reasonable price.
